

VitaNexis™

Water Conditioning Agent, Nonionic Surfactant, Humectant and Drift Reduction Agent

PRINCIPAL FUNCTIONING AGENTS

Trisodium Citrate Dihydrate, d-glucopyranose, oligomeric, C9-11-alkyl glycosides and Propylene Glycol.....	33.7%
Constituents Ineffective As Spray Adjuvants.....	66.3%
TOTAL.....	100.0%

Surfactant content is 7.5%
All ingredients are approved for use under 40 CFR 180

GENERAL INFORMATION

VITANEXIS is an easy to use premix of drift reduction technology and water conditioning agents that protects the performance potential of glyphosate and 2,4-D premixes or tank mixes from antagonistic metal ions found in hard water and leaf tissue while further reducing drift risk.

For use with Enlist One® and Enlist Duo®, Enlist One and Enlist Duo may only be tank-mixed with products that have been tested and found not to adversely affect the spray drift properties of Enlist One and Enlist Duo. A list of those products may be found at EnlistTankmix.com.

PRECAUTIONARY STATEMENTS

Causes skin and eye irritation. If medical advice is needed, have product container or label at hand. Read label before use. Wash protective equipment and work clothes thoroughly after handling. Wear protective clothing. Specific treatment is given in the First Aid section on this label or on the SDS.

KEEP OUT OF REACH OF CHILDREN
WARNING
READ ENTIRE LABEL BEFORE USING

STORAGE AND DISPOSAL

This product must be stored above 32°F (0°C). *Failure to do so may cause damage.* Keep containers sealed when not in use. Store in original container only. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.
